DETAILED ACTION

Claims 1-24 are pending in this application.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-24, drawn to compounds of claim 1, wherein R3 and R4 are the same or different and independently represent hydrogen, alkyl, cycloalkyl, aryl, arylalkyl, cycloalkylalkyl, aryloxyalkyl, alkoxyalkyl, alkoxyamino, or alkoxy(mono- or di-alkylamino), and R1, R2, and R5 are as defined, classified class 548 and subclasses 300.4+.
- II. Claims 1-24, drawn to compounds of claim 1, wherein R3 and R4 are taken together and represent alkylidene or a heteroatom-containing alkylidene, wherein R3 and R4 comprise a six-membered ring, and R1, R2, and R5 are as defined classified in class 546, subclass 273.1+ and class 544 subclass 98+.
- III. Claims 1-24, drawn to compounds of claim 1, wherein R3 and R4 are taken together and represent alkylidene or a heteroatom-containing alkylidene and wherein R3 and R4 comprise a ring which has seven or more members, classified in class 540 and various subclasses.

The groups are distinct, each from the other because:

Groups I-IV supra are distinct, each from the other, because they differ in structure and/or element so as to be patentably distinct, and a prior art reference anticipating but one of the groups would not render obvious the other groups under 35

Art Unit: 1626

U.S.C. 103 (MPEP 806.04(f)). Each group is capable of supporting its own patent. Examination of more than one of the above groups would be an undue burden as it would require additional search in both the patent and non-patent literature.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
